PREFACE.

PHILADELPHIA, 4th Month 21st, 1885.

THE Coins and Medals in this sale are all in a high state of preservation. We have, as is our custom, carefully described them, and, judging by our previous sales, we believe to the satisfaction of the bidders. We would respectfully commend the following-named pieces to the especial notice of collectors and trust they will find some in the collection to add to their cabinets. Ancient Greek, Cyrene Stater, gold of Agrigentum, tetradrachms of Perseus, Rhegium, Patraus, etc.; also early silver—the fine series of Roman and English coins; *ten crown* piece of Brunswick; Early American medals; Colonials—the N. E. shilling, Lord Baltimore sixpence; State coins, Immune Columbia, etc.; Medals, the Chas. Carroll in *silver*, John Brown, etc.; U. S. Pattern Pieces, the 1792 cent and half disme by Birch, 1870 set of 5 pieces, 1871 Dollar, 1872 Commercial Dollar, 1873 Trade Dollar set, 1878 Dollars, etc.; U. S. Dollars 1794, the extremely fine dollars from 1795 to 1803, and the great rarity, the King of the U. S. Series, the genuine 1804 Dollar, 1836, 1839, 1856, brilliant proofs; Half Dollars, 1797; Quarter Dollars, 1796, 1853 without arrows; Dimes of 1800, 1846; Cents, many remarkably fine; Half Cents, 1793, 1796, 1802, 1831, 1836, 1840–48, 1852, and many other fine or rare pieces too numerous to mention. Collectors will notice that a starting limit has been placed on four lots, and it is done so they may use their money on other numbers if they do not wish to bid that much for those lots, whereas if no limit was placed, some would probably send a bid of $50 to $60 on the 1794 Dollar, for instance, which they would not secure, and can, under the limit, transfer their bid to some other piece or lot. The first time this was done in our cata-

logues was at the sale of the Lefferts collection, where the 1794 Dollar, limited at $65 (less than its value, as we stated), sold for $94.

Collectors will please take notice that the sale is to be held in Philadelphia, and we will be glad to have them attend personally when practicable. The sale will be sold under the same rules and regulations as formerly, and we guarantee all the coins and medals genuine unless otherwise stated.

Catalogues containing three beautiful plates (to be sent before sale) will be issued at 75 cents, or with a price list (to be sent after sale) included, $1. Plain catalogues can be had free upon application.

The 1804 Dollar will be the great feature of the sale, and no doubt will cause spirited competition, as it is the only fine specimen sold within ten and a half years, and probably the finest known. We have taken great pains to give a history of the original and restrike 1804 Dollars, much of it appearing in this catalogue which has never before been published or known to collectors, particularly that referring to the differences between the originals and restrikes and about the alteration of the die.

No collector possessing a copy of the illustrated catalogue (which shows both obverse and reverse of the 1804 Dollar) could be deceived by an alteration or other false dollar supposed to be of this year, as by comparison he would at once see that there were other differences besides merely the date, and in this way the catalogue will be valuable and should be in the hands of every American Numismatist.

Catalogues, plates and priced catalogues may be procured of, and orders will be executed by, the other regular dealers and ourselves.

Very Respectfully,

S. H. & H. CHAPMAN,

Numismatists and Antiquaries,

No. 2009 Arch St., Philadelphia.

The specimens known are in the collections of: 1. Cabinet of U.S. Mint, Philadelphia, weight 415.2 grs. 2. M. A. Stickney, procured

by him from Mint Cabinet, in 1843, in exchange for other coins. 3. W. S. Appleton, bought at an advance on $750, in 1868, from E. Cogan, who purchased it from W. A. Lilliendahl, who bought it at sale of collection of J. J. Mickley, 1867, for $750. 4. L. G. Parmelee, bought at sale of E. H. Sanford's collection, 1874, for $700, who obtained it in 1868 from an aged lady, who got it at the Mint many years before. 5. W. B. Wetmore, bought of Mr. Parmelee in 1868 for $600, from sale of H. S. Adams' collection, 1876, at $500, from sale of M. I. Cohen's collection, 1875, at $325 (in fair condition). 6. Present owner unknown to us; formerly in collection of R. C. Davis, and recently sold for $1200. 7. S. H. & H. Chapman, purchased October 13th, 1884, at the sale of a fine collection in Berlin (where we also secured some other gems, viz.: 1795 Bust, 1802 over 1, 1803 dollars; 1795 ½ dollar; 1796 ¼ dollar; 1800 Dime; 1793 cent, etc). We have written to Mr. Weyl, the cataloguer, for information as to its previous ownership, but have not yet received his reply. This great gem is identical with and struck at the same time as those above mentioned.

We have compared it with that in the Mint, turning them round together, and they are absolutely the same, with ours a trifle the finer.

We have recently examined Nos. 1 Mint, 3 Appleton, 4 Parmelee, 5 Wetmore, and all are alike. No. 6 we saw some years ago, but do not now remember it well enough to describe it. Mr. Davis states "that it corresponds precisely with No. 1."

Mr. Stickney wrote that he was in too poor health to show us his specimen, but kindly informed us that it was the same as that in the Mint. He gave, on June 9th, 1843, an Immune Columbia in gold and other pieces for it then the duplicate in the Mint cabinet. This also proves that the specimen now therein was in the collection in 1843, fifteen years previous to the restrike, and the large prices for U. S. rarities which tempted their issue. It is also described in Eckfeldt and DuBois Manual, 1842. For a letter from Mr. Stickney in regard thereto see Am. Journal of Numismatics, 1867, Vol. II., p. 41.

We desire to express our thanks to Mr. Appleton, Mr. Parmelee, and Mr. Wetmore for their courtesy in permitting us to examine the specimens in their collections; to Mr. Davis for valuable information in regard to restrikes, *a;* to Mr. Snowden, Supt. U. S. Mint for the date of the destruction of the dies; also to Mr. Du Bois, Asst. Assayer of the Mint, for weighing these pieces.

It is the first one that has been offered at auction for eight

and a half years, and ten and a half years since one at all approaching it for state of preservation, and should bring a large advance on the previous prices. There is no other coin in the United States series which has such a widespread and acknowledged great value and rarity, or which adds so much numismatic glory to a collection, as the King of American rarities—the 1804 dollar.

The 1804 dollars are of two classes, to wit:

1st. Originals, which are from but one obverse and one reverse die, as the present specimen described and those quoted above.

2d. Restrikes;

a. There were struck in the U. S. Mint, in 1858, restrikes with plain edges, of which three were recovered after diligent search; two of these were destroyed in the Mint, and the other placed in the cabinet, where it remains.

The differences between these and the originals are as follows:

Obverse—The original die was recut in the word LIBERTY, the stars, and date, which made them larger and deeper, especially noticeable in the stars, which are broadened, also in the date, it making the outlines sharp and square, whereas in the originals they are somewhat rounded. Reverse—Not having the original die, they used another which differs in many respects, most easily noticeable in that the A touches the eagle's claw, the OF much nearer the end of eagle's wing than S in STATES (in the original it is equally spaced). Edge, plain. Weight, 381.5 grains. One specimen is in the Mint and another in England.

b. Struck between 1860 and 1869, as in the latter year all dies remaining were destroyed. Same as the above, but endeavors made to letter the edges in the absence of a complete collar by using pieces of collars, which did not contain all the letters, but repeated some of them several times. The only one which we can now place was sold in the Berg collection, 1883, for $740, and showed all the peculiarities mentioned, and its weight was said to be inaccurate.

The dies were destroyed in the winter of 1868–9, and there are none in the Mint prior to 1885; affidavits to this effect can be obtained. After the close of each year all dies are now destroyed. No counterfeit dies of the 1804 dollar were ever made.
